Thank you for your interest in our non-penetrating Magnemount (Patent Pending). The Magnemount uses ceramic permanent magnets to achieve its holding power, coupled with a unique attachment system to allow its use on irregularly curved steel surfaces.

The Magnemount is available in 4 basic designs. All of the designs can be modified to accommodate your specialized needs.

Model MB

- 100 MPH wind speed capacity – 5.5 ft² wind surface area
- Mast fixed/adjustable – fixed
- Footprint – 24" x 24"
- Mast size – 2"OD x .375"W x 36"L, or 3"OD x .375"W x 36"L
- Guyed or unguyed – unguyed
- Shipping container – No-charge corrugated carton, or a \$300.00 wood crate

Model MA

- 100 MPH wind speed capacity – 5.5 ft² wind surface area
- Mast fixed/adjustable – adjustable
- Footprint – 24" x 24"
- Mast size – 2"OD x .375"W x 36"L, or 3"OD x .375"W x 36"L
- Guyed or unguyed – unguyed
- Shipping container – No-charge corrugated carton, or a \$300.00 wood crate

Model MASS

- 100 MPH wind speed capacity – 10.5 ft² wind surface area
- Mast fixed/adjustable – adjustable
- Footprint – 72" x 72"
- Mast size – 2"OD x .375"W x 60"L, or 3"OD x .375"W x 60"L
- Guyed or unguyed – guyed
- Shipping container – \$400.00 wood crate

Model MASS XL

- 100 MPH wind speed capacity – 5.5 ft² wind surface area
- Mast fixed/adjustable – adjustable
- Footprint – 72" x 72"
- Mast size – 2"OD x .375"W x 144"L
- Guyed or unguyed – guyed
